Description

LIMITED OFFER so I can build some extra funds to attend conventions! Listing will close once I've reached maximum workload, which depends on the number of commissions and their complexity.

Includes 1 full-body, fully shaded Pokémon without background. It will be drawn in the original style (=not derpy, unless you specify you want it derpy).

You may choose a pose and interaction with the environment, or interactions with other characters if you purchased them as add on. No nsfw, please.

You will receive a low-resolution file for PERSONAL use (more info on the next page). High-resolution files can be purchased as add-on.

🏞Background choices are currently limited to the following natural environments:
-Beach
-Underwater
-Grasslands
-Forest

Please specify which type of background you'd like. Each background will be created uniquely for you. Commissions with background will be A4 size.

⚠Very complicated designs like certain Legendaries, Mega Evolutions and Gigantamax Forms are excluded from this commission.
Don't hesitate to contact me if you're unsure about your choice. :)
